Creative Director: Helen Jiang
Designer/Developer: Audrey Engman

Content:
- Humorous yet educational
  - More surface-level information because the audience isn't that well knowledge about the topic
  - No need to go on a deeper dive
- Navigation-wise
  - Up to you
  - Whatever seems more efficient to you
- A one-way horizontal scroll storyboard of a scenario of someone dying from a coconut would be interesting

Design:
- Fun, interactive site
- Bright bold colors
- Fun images or illustrations
- Light-hearted website

Meeting Recording:
